

CHEMUNIQUE LOCKDOWN WEEK 1: COMMUNICATION STATEMENT

30 March 2020

Good day,

The team at Chemuniqué trusts that you are finding many opportunities to work more generously and patiently during this difficult and unpredictable time.

As mentioned in our email last week, as essential suppliers in the agricultural supply chain, Chemuniqué endeavours to do everything we can to continue supporting you, our customers and partners.

I am sure you have already experienced some challenges within each of your businesses which are uncontrollable. We have experienced some of these ourselves in the logistics department due to the limitations of transport and warehouse operating times.

We are pleased to inform you that we still do not foresee any stock issues. Our logistics team has spent a lot of time over the past months making sure that we have enough stock to supply our loyal and long-term customers over the next few months. While there might be slight delays in product delivery, please rest assured that your business is important to us and current customers' orders will be prioritised over new business.

We are in the process of evaluating our stock situation and do so on a weekly basis to monitor any changes. These will be communicated with each customer regularly and you will be informed immediately should we foresee any challenges whatsoever. If there are any changes on your side with regards to product demand, please do inform us as soon as you can, so that we can create a plan together with you to ensure ongoing supply.

Chemuniqué and our partners are proud of our commitment to play a role in producing feed for food for the future. We believe that our businesses are a vital cog in ensuring that feed and food producers can continue to provide quality agricultural products, therefore it is our priority to navigate these extraordinary times whilst continuing to serve our customers.

If you have any queries regarding this, please feel free to contact your Chemuniqué consultant or myself at any time.

Kind regards,

Jackie Tucker
COMMERCIAL EXECUTIVE
