## 2021 Chemuniqué trace mineral supplementation recommendations:

Sheep

	Trace mineral	Trace mineral form	* Recommendation ppm (DM)			
			Breeding sheep	Stressed lambs	Growing lambs	Performance benefit
	Chromium	MiCroplex <sup>®</sup> 3%	-	0,40	-	<ul> <li>Increased insulin response and nutrient storage</li> <li>Improved immune function</li> <li>Reduced stress</li> </ul>
	Cobalt	Inorganic	-	-	-	<ul> <li>Improved fibre digestion</li> <li>Improved synthesis of Vitamin B<sub>12</sub></li> <li>Improved appetite and production</li> </ul>
		CoPro <sup>®</sup> 25	1	1	1	
	Copper *	Inorganic	5	5	5	<ul> <li>Increased disease resistance</li> <li>Improved reproductive performance</li> <li>Improved claw, hoof, and skin health</li> </ul>
	lodine	Inorganic	1	1	1	<ul> <li>Improved energy metabolism</li> <li>Improved thermoregulation</li> </ul>
	lron *	Inorganic	-	-	-	<ul> <li>Improved oxygen transport</li> <li>Improved immune response</li> </ul>
	Manganese	Inorganic	-	-	-	<ul> <li>Increased disease resistance</li> <li>Improved reproductive performance</li> <li>Improved claw, hoof, and skin health</li> </ul>
		Availa®Mn 80	40	40	20	
	Selenium	Inorganic	0,15	0,15	0,30	<ul> <li>Improved antioxidant activity</li> <li>Improved immune function</li> <li>Improved milk and meat selenium content</li> </ul>
		Availa®Se 4%	0,15	0,15	0	
	Zinc	Inorganic	20	20	20	<ul> <li>Increased immune response</li> <li>Improved reproductive performance</li> <li>Improved production</li> <li>Improved claw, hoof, and skin health</li> </ul>
		Availa®Zn 120	60	60	60	

\* Recommendations based on the latest research to ensure optimal performance and cost-effective production (Chemuniqué/Zinpro mineral review, September 2020).
\* Copper and iron recommendations depend on area, as well as feedstuff mineral content.
